

# EDI Specialists, Inc. - Services Overview

Founded in 1994, EDI Specialists is the premier staffing and services provider in our industry. We work across all industries, with companies of any size, and with all commercial software packages as well as proprietary systems. EDI Specialists is comprised of three distinct, but overlapping divisions, plus a Professional Services practice which takes staff augmentation and contracting to a higher level. All three divisions follow a similar model in providing direct hire, permanent placement candidates as well as consultants and contractors for short and long term requirements and staff augmentation.

## About Us:

**EDI Specialists** – Focuses on e-Commerce, Application Integration and B2B/EDI staffing and projects.

**Key IT** – Provides candidates and resources in the more traditional IT staffing and project arena.

**EMI** - Sources and delivers a corporate or plant level of Engineering, Manufacturing and IT talent including:

- Technicians
- Quality Control & Assurance
- Production/Machine Shop
- Purchasing
- CAD Design/Operators
- Hardware Engineering Engineers and Project/Program Managers
- HW/SW Documentation
- HW/SW Testing & Support
- Database
- Software/IT

**Professional Services** – Provides a higher level of project related consulting and development, typically encompassing requirements gathering, estimation, formal SOWs, delivery dates, status reporting, and subject matter experts, working in close coordination with our clients and their internal resources. While Professional Services can work across all three divisions and be employed for many types of projects, there are three focused and dedicated practices:

1. IBM® Sterling B2B Integrator (formerly Sterling Gentran Integration Suite/GIS/SI)
2. Microsoft Technologies and BizTalk Server
3. GXS product suite

## Consulting & Contracting - Strategic to Tactical Levels:

- B2B/EDI Strategy Development and Execution
- Assessments & Technology Evaluations
- Project Management and Implementation
- Technical & Project Contracting
- Application Integration, Data Transformation and Mapping
- ERP Integrations and Interfaces
- Dedicated Practices in Microsoft Technologies, BizTalk, IBM® Sterling B2B Integrator/GIS & GXS Platform
- HIPAA and Healthcare experienced EDI, QA and IT Resources
- QA Professionals
- Ad Hoc Support – as your needs dictate

*"Over the last sixteen years, I have hired both full time employees and consultants and EDI Specialists has always made me feel like I was never alone in the decision making process."*

Ecommerce Manager,  
Global Imaging Company

## In summary:

- Our permanent placement and contract staffing services span the entire e-Commerce, IT and Manufacturing/Engineering spectrum.
- We specialize in three distinct areas: (1) Placement of e-Commerce, B2B/EDI, and Application Integration professionals; (2) IT resources; and (3) Manufacturing/Engineering personnel.
- We can assist you with permanent or contract resources - and on short notice.

You will not find a more qualified, responsive or flexible firm in the industry.

We are the resource firm that other vendors call for help! We guarantee our work!
